Subject: OR CZARA - Decision Document Footnote Questions
Attachments: Decision Document References (2014-11-03).xlsx

Hi all,

We started digging in to the decision document references in the footnotes (new Task 8 of the TD). We compiled all of the readily available references and will begin reviewing these; however, there are a handful that we were not able to track down (black font) or we had questions on (blue font). These are summarized in the list below and highlighted in yellow in the attached draft spreadsheet.

- 1) Footnote 5: Is this referring to the Independent Multidisciplinary Science Team. 1999. Document or one of their other publications?
- 2) Footnote 22: could not locate: "Seeds, J., Mitchie, R., Foster, E., ODEQ, Jepsen, D. 2014. "Responses to Questions/Concerns Raised by Oregon Forestry Industries Council Regarding the Protecting Cold Water Criterion of Oregon's Temperature Water Quality Standard", Oregon Department of Environmental Quality and Oregon Department of Fish and Wildlife Memo. 06/19/2014"
- 3) Footnote 35: Could not locate (for free) "Sessions, 1987. Road Location and Construction Practices: Effects on Landslide Frequency and Size in the Oregon Coast Range" (<http://www.ingentaconnect.com/search/article?option1=uka&value1=road&operator2=AND&option2=author&value2=SESSIONS&sortDescending=true&sortField=default&pageSize=10&index=5>)?
- 4) Footnote 37: Could not locate: "NOAA National Marine Fisheries Service. 1996. "Analysis of the Oregon Department of Forestry's (ODF) Most Recent Submission for the State of Oregon's Coastal Salmon Restoration Initiative". September 10, 1996 memo from Rowan Baker to Steve Morris and Elizabeth Garr."
- 5) Footnote 46/48: Could not locate (for free) "Whittaker, K.A., McShane, D., 2012. Comparison of slope instability screening tools following a large storm event and application to forest management policy. Geomorphology 145-146 (2012); 115-122."
- 6) Footnote 58: Could not locate: "Norris, L.A., and D.G. Moore. 1971. The Entry and Fate of Forest Chemicals in Streams. In Forest Land and Stream Environment – Symposium Proceedings, ed. J.T. Krygier and J.D. Hall. Oregon State University, Corvallis, Or, pp. 138-158."
- 7) Footnote 59: Could not locate: "Riekirk, H. 1989. Forest Fertilizer and Runoff Water Quality. Soil and Crop Science Society of Florida Proceedings, September 20-22, 1988, Marco Island, FL."
- 8) Footnote 60: Could not locate: "Norris, L.A., H.W. Lorz, and S.V. Gregory. 1991. Forestry Chemicals. Influences of Forest and Rangeland Management on Salmonid Fishes and Their habitats. American Fisheries Society Special Publication 19, pp. 207-296."
- 9) Footnote 61: No reference included in footnote. Can you please provide the reference or clarify?
- 10) Footnote 65: Could not locate without membership: "National Council for Air and Stream Improvement. 2013. Measurement of Glyphosate, Imazapyr, Sulfometuron methyl, and Mmetfulfuron methyl in Needle Branch Streamwater. Special Report No. 130-1."

Do you have copies of these references that you could provide? If not, we'll dig a little deeper and can try libraries at local universities, etc., but we were trying to be efficient with our time.

Thanks, Amy
